http://www.r-exercises.com/wp-content/uploads/2016/07/Fotolia_62047262_XS.jpg

On R-exercises, you will find *more than 2,500* R exercises. We've bundled them into exercise sets, where each set covers a specific concept or function. An exercise set typically contains about 10 exercises, progressing from easy to somewhat more difficult. In order to give you a full picture of all the amazing content on this website, we've categorized all sets into broader topics below.

Start at the beginning, or anywhere you want

If you're completely new to R, we suggest you simply start with the first topic, "Vectors". Once you've managed to work through all exercise sets, from top to bottom, you should have a fair amount of knowledge of, and practical experience with, using R. Of course, those of you who are familiar with R already, can jump straight to any of the topics below.

By continuing to use the site, you agree to the use of cookies. [more information](#)

Enroll in an online R course

Also, consider enrolling in an online R course to speed up learning, for example [R Programming A-Z™: R For Data Science With Real Exercises!](http://www.r-exercises.com/product/r-programming-a-z-r-for-data-science-with-real-exercises/) (<http://www.r-exercises.com/product/r-programming-a-z-r-for-data-science-with-real-exercises/>) if you're a beginner, or [R Programming: Advanced Analytics In R For Data Science](http://www.r-exercises.com/product/r-programming-advanced-analytics-in-r-for-data-science/) (<http://www.r-exercises.com/product/r-programming-advanced-analytics-in-r-for-data-science/>) if you're already at an intermediate level. Or even better, check out our [R Course Finder](http://www.r-exercises.com/r-courses/) (<http://www.r-exercises.com/r-courses/>) directory, which includes more than 140 R courses, and use its filters and search to quickly find the perfect R course that matches your level and interests!

Subscribe and share

New exercise sets are added on a daily basis. [Subscribe](http://www.r-exercises.com/subscribe/) (<http://www.r-exercises.com/subscribe/>) to R-exercises to receive weekly updates and bonus sets (<http://www.r-exercises.com/2017/01/09/bonus-tidy-the-data-up/>) by email. For Free! Read [Why exercise](http://www.r-exercises.com/why-exercise/) (<http://www.r-exercises.com/why-exercise/>) and [Celebrating our 100th Exercise Set](http://www.r-exercises.com/2016/12/28/celebrating-our-100th-r-exercise-set/) (<http://www.r-exercises.com/2016/12/28/celebrating-our-100th-r-exercise-set/>) to better understand our philosophy. If you enjoy our exercises, please share this page with your friends. If you're a college student and enjoy our exercises, you can help your fellow students by asking your TA or professor to add a link to R-exercises on your department's webpage with R resources.
